

TerraSan™ Unit for Reclamation of Municipal Sewage  
26,000 GPD in a 40' x 8' Container

### Systems available :

- ◆ Landfill leachate
- ◆ Food processing
- ◆ Sewer mining / reclamation
- ◆ Industrial wastewater treatment & reuse
- ◆ Cooling water descaling
- ◆ Shipyard wastewater treatment

### UNPARALLELED BENEFITS OF THE TERRASAN SYSTEM

- ◆ Features a small footprint and flexible, modular design
- ◆ Requires minimal retention time
- ◆ Effective treatment without the use of bio-reactors
- ◆ Ensures consistent effluent quality
- ◆ Requires minimal operator interface and service time
- ◆ Readily adaptable for a variety of treatment objectives

## TerraSan™ Advanced Wastewater Treatment

TerraSan™ represents a breakthrough in advanced technology for wastewater treatment. The systems utilize no traditional biological treatment; relying on electro-chemistry for disinfection and advanced coagulation and flotation techniques for solids removal. A variety of innovative polishing options eliminates or minimizes reliance on membranes.
